

Helpful Links to ‘Sustainable Energy Savings’ sites

1. The latest offers of grants for household from Government and other sources: -

1.1 **The UK Government** is offering grants, available up until March 2022, for a range of energy efficiency improvements including : insulation; low carbon heating – solar panels – heat- pumps ... **Green Home Grant** vouchers are available for up to £ 5,000 for two thirds of the cost of eligible improvements (or up to £10,000 for households receiving benefits)

for full details please see: - www.simpleenergyadvice.org.uk and

www.gov.uk/apply-green-homes-grant

2. **Historic England**

Around one quarter of our houses in Marshfield are listed buildings, and this site provides some helpful guidance on the issues of energy efficiency and possible energy cost savings in these older properties – as well as other matters relating to living in an older property.
